

ARTIST CV – Marie (Maria Charitou)

I am Marie and my mission is to bring joy to people's life.

I make art to empower others to love their individuality and weaknesses. I want you to be who you are with confidence and to embrace all the broken parts inside.

I share beauty because I know it is much needed in this world.

I keep dreaming of a better world with less drama and I hope that through my art I can give you some artistic joy.

I am an artist and former interior designer. I create artistic handmade jewelry and inspirational paintings.
